

Una linea speciale a scorrimento laterale che supera i vincoli architettonici e permette l'utilizzo di un portone Breda dove prima non era possibile, con tutti i benefici che ne conseguono: pannelli coibentati, infiniti colori e personalizzazioni illimitate, dalle sezioni vetrate alla tipologia del manto. Phenix e Ibis, i portoni che "pensano" laterale.

A special product range with side sliding system that overcomes architectural barriers and allows the use of a Breda door where it was not possible before; with all its advantages: insulated panels, infinite colors and unlimited custom designs, from glazed sections up to several coat options. Phenix and Ibis, the doors that think "sideways".

Eine besondere Produktlinie mit seitlicher Führung die architektonische Hindernisse überwindet und somit das Einbauen von einem Breda Sektionaltor ermöglicht, wo es früher nicht möglich war; mit all seinen Vorteilen: isolierte Paneele, unendliche Farben und unbegrenzte individuelle Gestaltungen, von den verglasten Sektionen bis zu den Torblattvariationen. Phenix und Ibis, die Tore die „seitlich“ denken.

Il sezionale laterale rinasce a nuova vita! Grazie al particolare sistema di scorrimento orizzontale, Phenix è la soluzione ideale per installare un sezionale Breda... dove prima non si poteva! Vani con area utile di passaggio ridotta o con pareti interne inclinate, da oggi saranno l'occasione giusta per installare un portone sezionale laterale Breda! Da oggi Phenix è disponibile nella versione vetrata Full Vision e nella versione Wood, con pannelli in legno Okoumé nei disegni Top, Polis, Civic e Gara.

The side sectional door revives to new life! Thanks to the particular horizontal sliding system, Phenix is the best solution to install a Breda sectional door ... where it was not possible before! Garages with reduced clearance or with inclined internal walls, from now on will have the best solution with the side sectional door by Breda! Our side sliding model Phenix is now in our fully glazed "Full Vision" version available and has also been implemented in the Phenix WOOD version using multi-ply Okoumé wood sections that can be selected in Top, Polis, Civic or Gara design.

Das Seitensektionaltor erwacht zu neuem Leben! Dank seinem einzigartigen Beschlag, ist Phenix die ideale Lösung um ein Breda Sektionaltor dort zu installieren... wo es bisher nicht möglich war! Bei Räumen mit niedrigem Durchgang oder neigenden Innenwänden, haben sie jetzt die Möglichkeit ein Seitensektionaltor zu installieren! Ab sofort ist unser Seitensektionaltor Phenix in der Vollverglaste Version FULL VISION und in der Echtholz Version WOOD, mit Holzpaneele aus Okoumé in den Motiven Top, Polis, Civic oder Gara verfügbar.
