

Pegaso Line, la linea di sezionali
in legno leggera, tecnologica e moderna.
Portoni che sono già leggenda.

Pegaso Line, the range of sectional made
with light, technologic and modern wood.
Doors which are already a legend!

Pegaso Line, die leichte, moderne
und technologische Holztor-Linie.
Ein Tor, eine Sage.

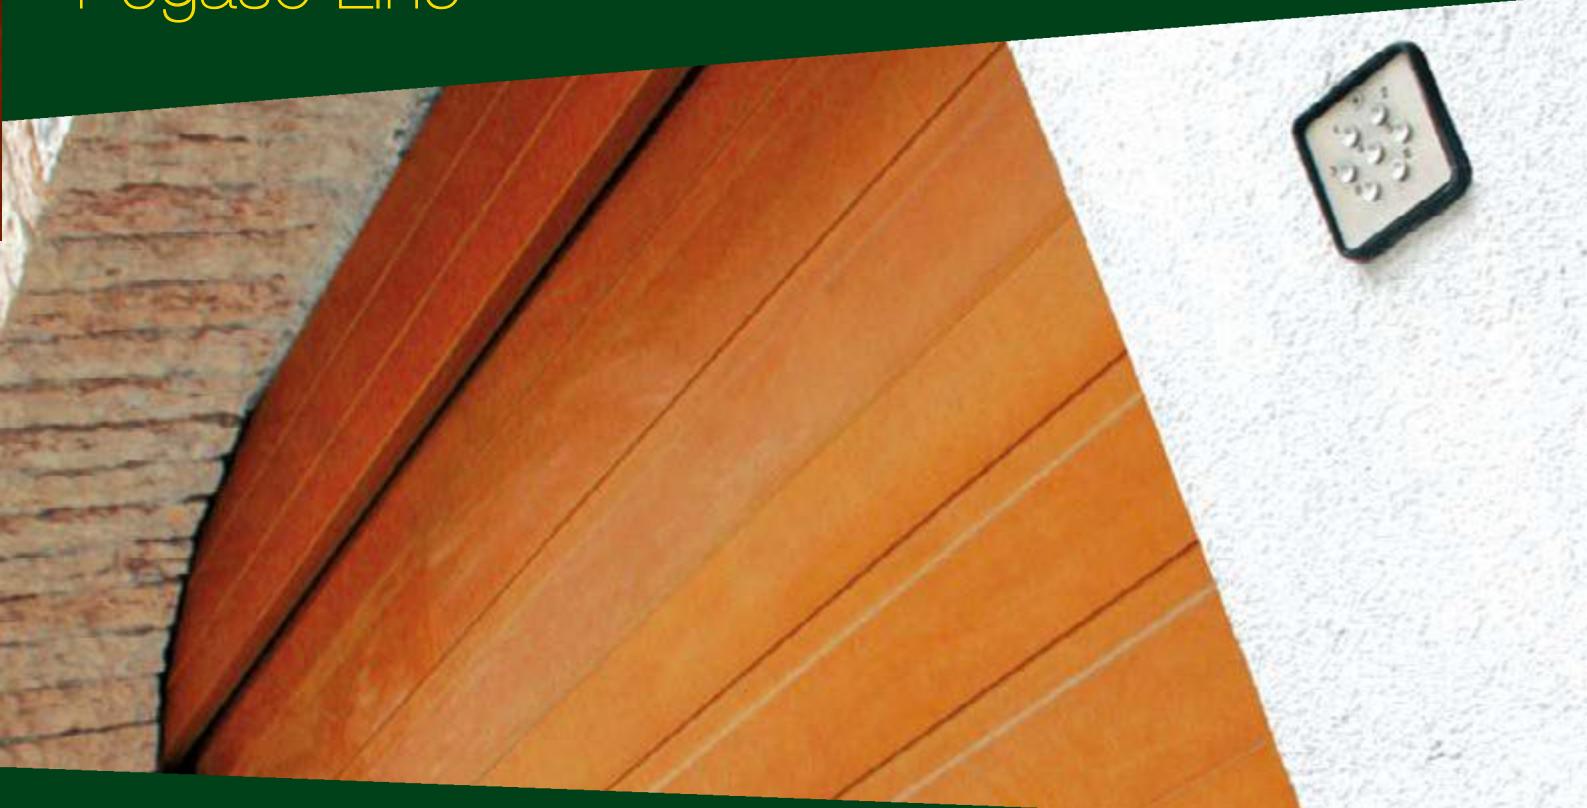

Tre modelli leggeri per natura, dove la struttura in alluminio e la tecnologia applicata reinterpretano al futuro l'antico fascino di un materiale nobile come il legno.

Tre versioni pratiche, belle e funzionali con esclusivi sistemi di sicurezza e massima possibilità di personalizzazione per uno stile ineguagliabile nel segno di Breda.

Three light models, where the aluminium frame and technology enrich the old charm of a noble material as wood is. Three practical, beautiful and functional versions with exclusive safety systems and several personalization possibilities, with a final inimitable style, the Breda ones!

Die Leichtigkeit dieses Konzept steht in der Alu-Struktur und in der Technologie, die, zusammen, stellen den antiken und adligen Zauber des Holzes dar. Drei schönen, zweckmäßige und praktische Versionen mit ausgezeichnete Sicherheitsvorrichtungen und Personalisierungsmöglichkeiten, in dem unvergleichbaren Breda-Style.

Pegaso Line

Pegaso Standard

CONFIGURAZIONI / Configurations / Ausstattungen

Pegaso Standard, il must della linea Pegaso dall'elegante gusto estetico che garantisce una insolita e quantomai importante combinazione tra leggerezza strutturale e requisiti di robustezza e di resistenza nel tempo superiori alla norma. La versione standard garantisce inoltre la possibilità di coordinare le finiture dei pannelli di legno Okoumè con il resto dei serramenti della propria abitazione.

Pegaso Standard, the must from Pegaso range with an elegant aesthetic taste, which grants a special combination of structural lightness and at the same time strength and resistance, above the normal. The standard version grants also the best combination between the finishing of the wook Okoumè panels with all the frames from the house.

Pegaso Standard, der „must“ der Pegaso Line. Der elegante, ästhetische Geschmack erlaubt eine wichtige Zusammenstellung zwischen der Leichtigkeit der Struktur und der jahrelangen Haltbarkeit. Die standard Version gibt die Möglichkeit dazu, die Okoumèholz-Paneele mit den Hausfenster und Türe, zu kombinieren.

Pegaso Doga

CONFIGURAZIONI

/ Configurations / Ausstattungen

Portone sezionale realizzato con speciali profili in alluminio e applicazione di doghe disponibili nella versione verticale e, di recente, anche orizzontale dallo spessore di 12 mm, per regalare un insieme di armonia strutturale e di forte linearità. Elevati standard tecnologici e di sicurezza fanno di Pegaso Doga la soluzione ideale per qualsiasi abitazione.

A sectional door made with special aluminium profiles and vertical ribs, of late also horizontal, with 12 mm thickness, to grant a final harmonic structural and linear result. The high technologic and safety standards make Pegaso Doga the ideal solution in every house.

Dieses Sektionaltor besteht aus besonderen Alu-Profilen, mit senkrechte oder waagerechte 12mm Dauben, für eine harmonische und lineare Zusammenstellung. Pegaso Doga, dank seiner Sicherheitsvorrichtungen, passt zu jedem Hausstil an.
